

## Joe Mcelderry

As you will probably know Joe Mcelderry is through to the live shows of the x-factor along with the other contestants. When Joe was younger he attended Harton Technology College and started the school choir when he was 16 years old then when he left school he sang at karaokes. With Joe coming to this school when he was younger we have "Go Joe" posters all around the school like this one.

If Joe gets through to the finals or even wins, he will probably visit us and sing.

We'll keep watching the x-factor and fingers crossed that Joe will get through to the finals.

**GO JOE !**
